

Surveyor 1 – Full Time

Civil Southeast, LLC
PO Box 1900
Andalusia, Alabama 36420
info@civilse.com
Main: 866.245.0584

Job Description

Civil Southeast Engineering Group is currently seeking an entry level Land Surveyor In Training (LSIT) to join our team. Interested candidates must have a willingness to perform boundary surveys, ALTA/NSPS land title surveys, subdivision plats, topographic surveys, prepare legal descriptions, perform construction staking, record surveys, and other various types of surveys in support of Civil Southeast engineering projects or directly for clients depending on the situation. The LSIT will work under the guidance of a Professional Land Surveyor (PLS).

Duties & Responsibilities

- Assists the PLS in all aspects of surveying projects
- Coordination with crews and technicians to establish responsibilities for survey field crews
- Perform quality control of survey activities in the field
- Perform field calculations for survey projects
- Provide preliminary project deliverables to PLS for review and approval

Qualifications

- Bachelor's degree in Geomatics or related field from an accredited institution
- Effective communication skills both orally and in writing for working with clients, regulators, public officials, team members and the public
- Strong sense of urgency and motivation to meet deadlines
- Experience with AutoCAD Civil3D preferred as well as knowledge of Topcon & Spectra GPS systems
- Strong organizational skills
- Desire to join a dynamic surveying team within a small, but growing, civil engineering firm
- Flexibility to travel and stay on-location, at times, for 1-3 nights in order to complete a project

Salary & Benefits

Salary is negotiable and will be based on experience level. Benefits include paid time off, paid overtime, 401(k) contributions and profit sharing.

Please email cover letter and resume if interested in this opening. Qualified candidates will be sent an Application for Employment to complete.
